

I would love the opportunity to represent your interests as the third+ year rep for the MULSS. As third+ years, we are in the best position to reflect on our time at MLS and determine what has worked well, what has been most enjoyable and what can be improved. If elected as third+ year rep I would like to tap into this expertise in two ways:

1. Establish a buddy program where second and third years can share their experiences and advice with first years
2. Create more diverse avenues for students to share their experiences with the LSS, such as anonymous surveys and open forum discussions.

The issues I am most passionate about are mental health, well-being and accessibility at MLS. I want all students to have the best experience possible in their time at MLS and I will represent any concerns you may have to the LSS and faculty. As a Competitions Officer this year, I understand the demands of a leadership position and believe I have the experience to be an effective and collaborative third+ year rep.

However, studying law doesn't mean we can't enjoy ourselves. I will work with the Activities Portfolio to ensure we have regular Third+ year social events to make sure we're all taking a well-earned break from study and enjoying our final year at MLS. I want Valedictory to be a memorable experience for everyone and I would love the opportunity to plan this event and the 2019 Yearbook.
